

SewThankful Tracy's Pieced Little Heart Block

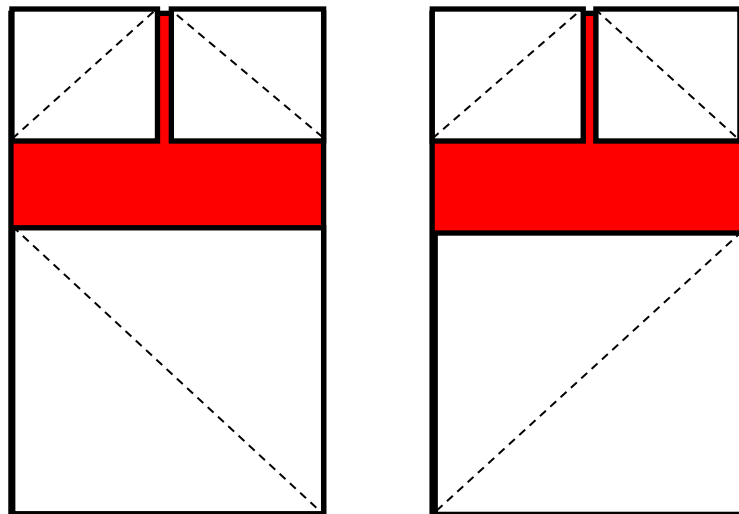

Unfinished Size: 3.5 inches | Finished Size (after sewn into project): 3 inches

Cut the following:

Fabric Color	# to Cut	Size
Heart Color Rectangle 	2	2 inches x 3.5 inches
Background Color Square 	2	2 inches x 2 inches
Background Color Square 	4	1 inch x 1 inch

Instructions:

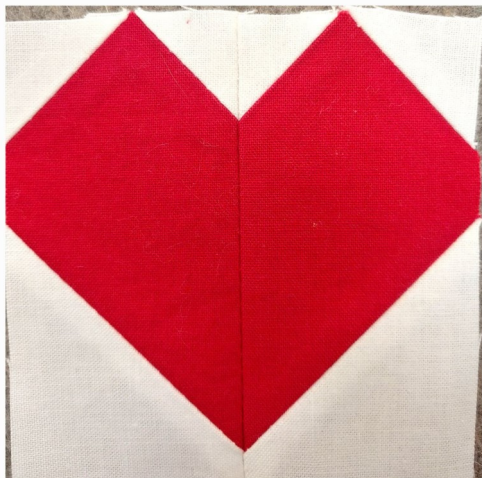

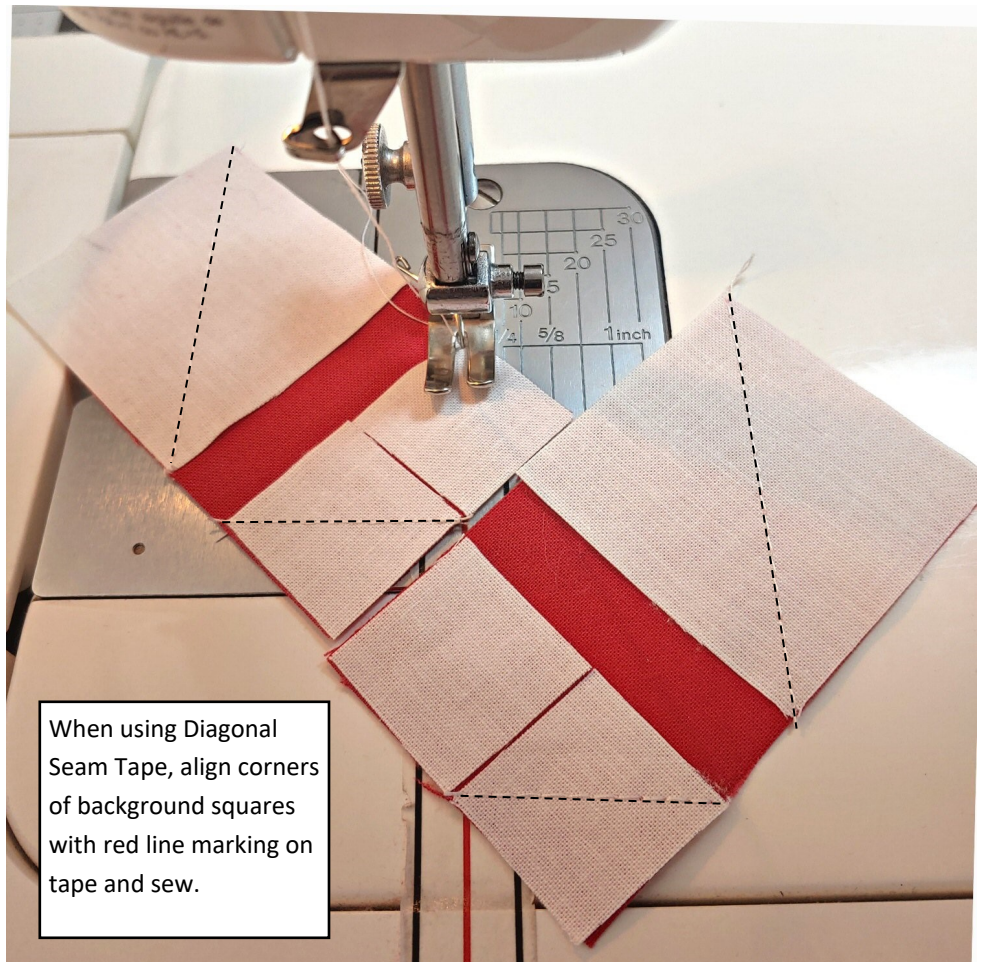

1. Draw a diagonal line on the wrong side of each of the background fabric squares (reference image in #2 below) — **OR use Diagonal Seam Tape** when sewing background squares to heart color rectangles (reference image on #3, page 2).
2. Place heart color rectangles right sides up. Place background color squares wrong sides up with drawn diagonal lines facing up, as shown below. **Note: These units should be mirror images.** (illustration not to scale—for reference purposes only)

3. Stitch background squares to heart rectangles on the marked diagonal lines (OR use Diagonal Seam Tape). This will form two half heart rectangle blocks.

4. After all seams are sewn trim seam allowances to .25 inches then press seams to the dark side or press them open, whichever you prefer.
5. Sew the two rectangles together to form your heart block. Press seams open or to one side, whichever you prefer.
6. Square up block if necessary and have fun using in your next project. Flip the page to see how I used mine.

This is how I used my heart block. I simply added borders log cabin style to get the size I needed to make this Collapsa-Bowl. The first round of logs is background color from the heart block (white). Then I used pink and purple logs to finish the Log Cabin Square.
